

March 8th 2015

Dear boys,

I think you should not squish

the ant. Ants are important.

They help the earth. They keep

it balanced. Ants don't hurt

you at all. They just wonder

what you are. What if people

called you a crook? Or even

squished your relatives each

day? Be nice to ants. There's

lots of them. That's what

I think you should do.

Yours Truly,

Natalie
